	_____	_____	_____

## Project details

**Please note:** The following questions refer only to the part of your study for which you are applying for ESA funding rather than a summary of your whole degree.

- 1. Outline your project aims and background (particularly, show how this money will help to answer one or more specific questions within your study).**

**2. Outline your experimental design (including projected analyses).**

- 3. Provide a clear timetable of your project that will yield good data within a logical timeframe. A project budget should also be included within this section.**
